DESCRIPTION

DesignPole offers specialized polished bollards to match any landscape. Made with the same methods used to create our spun cast prestressed poles, our bollards retain the same characteristics that make our poles among the strongest available. Whether it be a city street, park road, parking lot, or plaza, our bollards will fit attractively in any environment. DesignPole's products maintain their beauty for a long time, even in the most severe weather conditions.

FEATURES

1. Prestressed spun concrete makes DesignPole one of the strongest in the market.
2. The addition of natural stone aggregates, besides strengthening the concrete, makes for an aesthetically pleasing look.
3. This concrete is processed with our patented polishing technique that exposes a unique surface that resembles terrazzo.
4. DesignPole virtually eliminates maintenance costs. No need for painting or coating.
5. DesignPole can withstand any weather condition, such as heavy rain and wind, in any environment, such as the oceanfront or desert.
6. Customization available. Consult manufacturer.
