DESCRIPTION

The Small Round Pole was designed with aesthetics in mind. Our slimmest pole, the SRB/SRE is used in many applications, from commercial to residential, and for general area lighting. Our standard choice, the Small Round Pole retains the round, tapered feature of DesignPole, the optimal form for wind loads.

FEATURES

1. Prestressed spun concrete makes DesignPole one of the strongest in the market.
2. The addition of natural stone aggregates, besides strengthening the concrete, makes for an aesthetically pleasing look.
3. This concrete is processed with our patented polishing technique that exposes a unique surface that resembles terrazzo.
4. DesignPole virtually eliminates maintenance costs. No need for painting or coating.
5. DesignPole can withstand any weather condition, such as heavy rain and wind, in any environment, such as the oceanfront or desert.
6. Customization available. Consult manufacturer.
